★★★ June/July 2020 ★★★

HURRICANE SEASON IS JUNE 1 - NOVEMBER 30

This year is projected to be above average in storm activity. Here's what you can do to be prepared:

CREATE AN EMERGENCY PLAN

Emergency plans will vary depending on your household's needs. Things to consider when making your plan:

- Your family may not be together when a disaster strikes. Know how you'll connect with one another if separated.
- Identify your evacuation route or shelter-in-place plan.
- Consider the specific needs in your household. (medical, dietary, disabilities)
- Don't forget your pets and any pet food or pet medication needs. Remember, if you have to leave your home ALWAYS take your pet with you!

HURRICANE CATEGORIES

Hurricanes are measured on the Saffir-Simpson Hurricane Wind Scale in categories from 1-5 based on intensity.

CATEGORY	WINDS (MPH)	DAMAGE	STORM SURGE
1	74-95	Very dangerous winds will produce some damage.	4-5 FT
2	96-110	Extremely dangerous winds will cause extensive damage.	6-8 FT
3	111-129	Devastating damage will occur.	9-12 FT
4	130-156	Catastrophic damage will occur.	13-18 FT
5	157+	Catastrophic damage will occur. A high percentage of homes will be destroyed.	19+ FT

MAKE AN EMERGENCY SUPPLY KIT

Assemble supplies you might need in an evacuation. Store them together in one location in something you can quickly grab and go.

- Extra cash
- Water and non-perishable foods along with any special dietary needs
- Change of clothing, rain gear and shoes
- Blankets or sleeping bags
- First aid kit and prescription medications
- Battery powered radio, flashlights and plenty of extra batteries

STAY INFORMED

Continue to monitor local TV or radio stations for instructions. Be sure you are subscribed to Rosenberg's Emergency Alert Notification System. Text "RTOWN" to 888777 to enroll.
